Cost per message	Free	Free	Free ⁵	Free ⁵

¹ A Riskless Endorsement is an endorsement to a contract which was originally bound outside Qatarlyst, e.g. on paper.

² Global licences are available from £5k pa and agreed on individual basis.

³ Full end to end configuration and testing should take less than one week to complete. Qatarlyst offers this first week of testing free of charge. Should configuration and testing take more than a week, we will agree a charging mechanism with you to help complete the integration on either a flat fee or ‘time and materials’ basis.

⁴ Carriers integrated on a 2-way messaging basis can alternatively choose to bind on Qatarlyst free of charge and agree a cost per message (£2 - £5) or agree an annual licence.

⁵ Qatarlyst will deliver messages free of charge. The Exchange charges may apply.
